

HOW MANY MIRACLES DO YOU NEED TO BECOME A BELIEVER WHEN YOU ARE TOLD THEY ARE SCIENTIFICALLY IMPOSSIBLE?

Miracles are always a work in progress that begin with one step. In the 19th century the quest for the purest water began with Michael Faraday's First and Second Laws of Electrolysis. But hypothesizing a law mathematically is not the same as actually achieving the results. Stepping into Faraday's shoes some 40 years ago was Electrical Engineer John Ellis who succeeded in doing what no inventor has done before or since—he perfected the distillation and purification of water—altering the bond angle of the hydrogen in the water from 104° to 114° creating what a Washington Post writer referred to in 1992 as "light water" and what most simply call "miracle water."

I started a scientific controversy when I finally changed the properties of ordinary water into "MIRACLE WATER" by increasing the Hydrogen Bond Angle in ordinary water from 104° to a measurable 114° and maintained it! However, text books will tell you this is "IMPOSSIBLE" because like any substance, as a result of that change it's not water anymore, it's something else but if you are a believer you know with God anything is possible!! Scientists have said for years that if anyone could do that it would "Cure Anything" and at 85, after being in this family business for 40 years, we have thousands of reports that it HAS!! Even during the development stage, as far back as 1/27/92 a Washington Post Investigative article (on my website) noted 10,000 people/day travelling to obtain my water! Do I want everyone to use my water? The short answer is NO because Bill Gates and many others have said we have to depopulate the planet down to 500 million (only those people that believe in God's miracles will survive)!

HERE'S PROOF why they say it's "impossible": Jon Spokes at The Washington Times received a phone call from the top scientist at the Los Alamos Nuclear Lab with so many degrees after his name he needed a fold out calling card: "You have a scam artist advertising the

impossible in your newspaper!!" which was followed by scientists from Lawrence Livermore and the Fort Detrick Biological and Cancer Institute. Jon Spokes monitors advertisers for honesty to maintain the good name of the newspaper! Accordingly, he told him: "Call John and if you decide he's a scam artist, he will never advertise in this newspaper again!" After calling me and buying our E5 machine, he laughingly told Jon: "I am embarrassed to say John HAS CHANGED THE HYDROGEN BOND ANGLE in water and I wish I owned his patents!" Since that time we have sold 100's of machines to these scientists that include Lawrence Livermore and Brookhaven Labs when a nuclear reactor contaminated an aquifer. With an Engineering Degree that includes Steam Plant Design, God proved with his infinite wisdom that I was right and the textbooks were WRONG!

After the above article, G. Abraham MD did independent Blood Flow studies at UCLA Medical School since blood is 94% water: "You can't argue with something you can measure. Nothing is even close to your water in getting blood to the extremities!" However, charlatans have bought my machines and used my "Miracle Water" on religious TV and since we can measure the 114° HBA we can see if it's our misbranded water! In some cases, it tests out as tap water!! Also, BOTH ordinary distilled (101° HBA) and ordinary water (104° HBA) have ZERO ENERGY!! Our 114° HBA water has 3000% MORE ENERGY and we can measure that also (website Ammeter Video adding ONLY 20 DROPS to ordinary water)! 94 year old Gilbert de Daunant (Prince Rainier's cousin), after shipping a machine to an MD in Africa: "Your water is working against EBOLA both in and out of the hospitals!" Since this energy boosts the immune system, we want to reach as many people as possible as a humanitarian effort. Accordingly, I am putting my properties into a nonprofit and using TV for further outreach. Our gorgeous 418 acre mountain property overlooking the Delaware River is perfect to evangelize this discovery! With its one of a kind Gatehouse and Pavillion including miles of roads with estate lighting and underground utilities to protect the visual beauty, this is a unique setting for visitors. We hope you will join us! 13 Patents 332 FDA Tests. Johnellis.com/measure • Written by John Ellis
